

# IZBrunch

Science meets Science

NETWORK-  
EVENT IM IZB

Thursday, April 27, 2023 | 10.45 to 13.00

Welcome / Moderation

**Dr. Peter Hanns Zobel**, Managing Director of the IZB

**Topic: News from the IZB**

Speaker

**Dr. Alejandra Mørk**  
CEO KLIFO A/S

**Topic: Ready for Phase 1? Closing the gaps in development projects**

How do you secure sufficient funding in due time? How do you prevent delays in regulatory approval of your clinical trial? How do you ensure supply of drugs for your development program? By identifying potential challenges and addressing gaps, biotech companies can accelerate their development program and increase the chance of getting investors on-board. Alejandra Mørk, CEO at the integrated drug development consultancy KLIFO, will give examples of how to identify gaps and how to access authorities and investors to be cost-effective and deliver results.

Speaker

**Prof. Dr. Thorben Cordes**  
Head of the Research Group „Physical and Synthetic Biology“, LMU Biozentrum

**Topic: Imaging the machines that reshape and remake chromosomes**

High spatial and temporal resolution imaging approaches allow us to watch molecular pathways unfold in real time. We are using these methods to uncover the dynamic events during conflicts on chromosomes that can lead to misregulation and disease. We see a surprising resilience in the machines responsible for chromosome maintenance and the molecular consequences when things go wrong.
